Experience

Composite Apps Inc. / Software Developer

Dec. 2017 - PRESENT | Irvine, CA

A software consulting company aiming to bridge the gap between users and technology by providing clients with multi-platform enterprise solutions.

- Worked closely with lead designer to convert high-res mockups into enhanced user interfaces
- Attached informative image/clips to create informative issues on GitLab
- Communicated with team to manage version control between internal and overseas teams
- Assisted with architecting front end components to increase modularity and efficiency
- Tackled multiple projects between sprints to meet 'strict' deadlines
- Connected API endpoints to make seamless interactions

PayStudents / Front-End Developer

Sept. 2015 - Mar. 2016 | Irvine, CA

A startup company with a vision to build student-company relationships through a task-based transaction. Companies upload micro tasks to the board and students complete them to raise trust for future opportunities.

- Designed UI on FluidUI
- Transcribed client visions into clear design specifications

Toshiba IoT Project / Front-End Developer

Jan. 2015 - Mar. 2015 | Irvine, CA

Toshiba America Electronic Components, Inc. (TAEC) is responsible for engineering, marketing, and sales. Toshiba sponsored and advised my team with our IoT project at UC Irvine.

- Developed Android app for smart, home gardening
- Transcribed specifications provided by clients

Education

University of California, Irvine

Bachelor of Science Informatics - Human-Computer Interactions

Sep. 2012 - June 2016 | Irvine, CA
